

Biodiversity Networking Workshop 2012:
Winegrowers sharing their experiences with other winegrowers

Biodiversity Networking Workshop

Continuing the conversation

Come along to find out about:

- **Scoring yellow sticky traps** and observations from the 2011/2012 growing season (Greg Baker, Principal Entomologist, SARDI)
- Vineyard biodiversity **case studies** from the Adelaide Hills, Langhorne Creek and McLaren Vale (meet the viticulturists)
- Special guest, Dan Falkenberg will share his knowledge about establishing **native grasses** in the Barossa
- The AMLR NRMB will discuss **partnership** opportunities

Case studies prepared by growers for growers

Workshop details

Date Wednesday,
30th May 2012

Time **8:45am start**
4pm finish
A gourmet lunch is included (local regional produce)

Location Library Room,
Wirra Wirra Vineyards,
McMurtrie Road,
McLaren Vale, SA

Registration

Name: _____

Company: _____

Address: _____

Suburb: _____ **State:** _____ **Postcode:** _____

Telephone: _____

Mobile: _____

Email: _____

*The workshop can cater for up to **25 growers**.
Numbers are limited, so please register quickly!*

To register please fill in your details and return this form to:

Email: Lian Jaensch info@langhornewine.com.au

Come along and continue the discussion

We will be hearing from local winegrowers who will share their knowledge about enhancing biodiversity in and around vineyards, what has worked well and some of the pitfalls to avoid!

Biodiversity Networking Workshop 2012:
Winegrowers sharing their experiences with other winegrowers

What is happening on the day?
Information presented....
By growers for growers

Time	Session	Presenters
8:45 for 9:00am	Tea/coffee	
9.00 - 9.15am	1. Welcome and background to the Biodiversity Networking Workshop	Lian Jaensch, Executive Officer (Langhorne Creek Grape and Wine Inc)
9.15 – 9:45am	2. Grower introductions, discovering biodiversity projects and experiences using yellow sticky traps	Mary Retallack, Viticulturist (Retallack Viticulture)
9.45 – 10.15am	3. Scoring yellow sticky traps – Key observations from 2012 and practical tips	Greg Baker, Principal Entomologist (SARDI)
10.15 – 10:45am	MORNING TEA	
10:45 – 11.30am	4. Winegrower case studies (15 minutes each) – Session 1 (establishing insectaria, native grasses)	Viticulturists from the Adelaide Hills, Langhorne Creek and McLaren Vale share their case studies Special guest – Dan Falkenberg from the Barossa will share his knowledge about establishing native grasses in vineyards.
11:30 – 11:45am	5. Adelaide and Mount Lofty Natural Resources Management Board – Partnerships (information, incentives and grants) – Water Affecting Activities	Dana Miles, District Officer (AMLR NRMB)
11:45 – 1:00 pm	6. Wirra Wirra Vineyard Case studies (20 mins each) – Native plantings used to help manage winery wastewater – Producing high grade compost from locally sourced 'waste' materials – Creek line restoration (AMLR NRMB work plan)	Walk and talk - discussion in the vineyard Kevin Fiddaman, Viticulturist (Wirra Wirra Vineyards) Tree popper demonstration
1.00 – 2:00pm	LUNCH (locally sourced produce)	
2.00 – 3:30pm	7. Winegrower case studies (15 minutes each) – Session 2 (creek line restoration, revegetation and enhancing soil biodiversity) 8. Q&A round up – any further questions? – Where to from here? – Join the biodiversity networking register!	Viticulturists from the Adelaide Hills and McLaren Vale share their case studies
3:30 – 4.00pm	AFTERNOON TEA (Wirra Wirra have kindly offered to conduct a wine tasting at the conclusion of the day for interested workshop participants)	

The Grape and Wine Research and Development Corporation (GWRDC) is providing funding for this project, through GWRDC Regional - South Australia Central, which incorporates the wine regions of Adelaide Hills, Currency Creek, Kangaroo Island, Langhorne Creek, McLaren Vale and Southern Fleurieu.
