Winery ENERGY SAVER Toolkit

SOUTH AUSTRALIAN WINE INDUSTRY
ASSOCIATION INCORPORATED

Register
for a free
information
session

Looking for ways to reduce your energy costs?

The *Winery Energy Saver Toolkit (WEST)* has been developed by the South Australian Wine Industry Association (SAWIA) in partnership with Zero Waste SA to help wineries identify opportunities and improve their energy efficiency.

SAWIA invites you to register for an industry-specific information session to learn about the new *Winery Energy Saver Toolkit*.

Hear how you can quickly identify the key opportunities in your winery, and how to prepare a business case to get started with implementation and begin saving energy and money.

AusIndustry staff will be on hand to provide a strictly limited number of companies with one-on-one assistance to help your application for funding under the *Clean Technology Food and Foundries Investment Program* – but you must register online.

Session program

10.00am – 12.30pm

The 'WEST' – About the toolkit

Where to get it, How to use it

Nick Palousis, 2XE, Mark Gishen SAWIA
